

14 of February 2016

In furtherance of their activities many local chiefs and police have in their numerous attempts to coil down riots and chaos in the Chiefdom have had to attest to the group's sworn oot to export violence to the four corners of the chiefdom in defense of their group vowed desire to sent Socfin to where they came from.

This act of violence and distortion of true reflections of situations from has unfortunately been grossly misinterpreted by various Organizations prominent being Green Scenery operating alone side others which for unknown reasons have stood on the side of MALOA as against the destiny of the peace loving true land owners most of whom have chosen to stay with Socfin no matter the level of detraction by MALOA and their partners in exporting violence into Malen Chiefdom

And as the trend continue many others have lent credence to MALOA forgetting the fact that MALOA is in fact a political faction and an offshoot of PMDC as per it membership and honest identity and a non registered Organization without an address the world over another situation which many a time have been taken up with stakeholders with records to the effect but with nothing being done to curb its callousness next to non in the true history of Malen hitherto renowned for her hospitality and peaceful co existence in the rest of Pujehun District.

To cut the long matter short we the peace loving and development orientated people of our beloved Malen Chiefdom are hereby calling on friends and well placed media houses to henceforth refrain from accepting and addressing MALOA as an activist representing true land owning families of Malen only to derail our heard won development gradually unfolding in the areas of food security , road work , health and sanitation, Education amongst many other sectors as already started by our four year old baby Socfin Agricultural Company Sierra Leone Limited

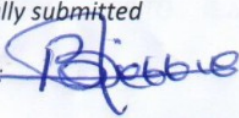

In conclusion we therefore once more remind all and sundry to see reason to now stop MALOA from carrying out its campaign of violence as the world cannot be destroyed by those who perpetrate violence but by the silent majority

We thanks you for stopping MALOA and her sympathizers old or new from posing greater and deeper security risk to Malen Chiefdom as to allow SOCFIN to add value to our land that we love and cherished more than anybody for now and ever. And as we write other members of the group including one Daniel Sillah are busy raining insults on our elders and Chiefs marking the recent High Court decision.

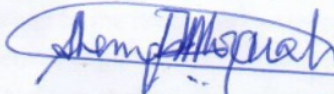

Be informed that the portion of land belonging to both the Spokesperson and Scribe namely: Shiaka Sama and Simaa Mattia situated at Bumuvulahun and Kassay villages respectively remained untouched as a result of their refusal to go into any lease arrangement meaning no body was quashed to lease his or her land as popularly misquoted .Also worth to know is that the other convict: James Kenei Blango is not a native of Malen but has forcefully resided at Bamba Malen in spite of repeated call by the local chiefs and other residents to excuse them for many a time been found wanting by the law ,something he vehemently turndown

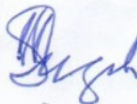

Lastly it will interest all to know that the other remaining convicts willingly patronized with Socfin only for them to become rebellious upon chopping up what was allocated to them by the Company.

Faithfully submitted

Signed:  (Hon. P. C. B. V. S. Kobbie)

Peace loving people and friends of Malen Chiefdom Pujehun District
