

The Socfin Agricultural Company was created under the impulse of the Ministry of Agriculture of Sierra Leone in 2010, the objective being food independence and modernisation of agriculture.

After a laborious process of prospection and consulting of local stakeholders (farmers, landowners, traditional chiefs, local and central Government) the site of Saanen - Malen was selected. An old existing oil palm estate was the central place for the development of 12 500 ha out of a 25 000 ha concession.
