

## Localisation des plantation de Safacam et Socapalm groupe Socfin - Cameroun

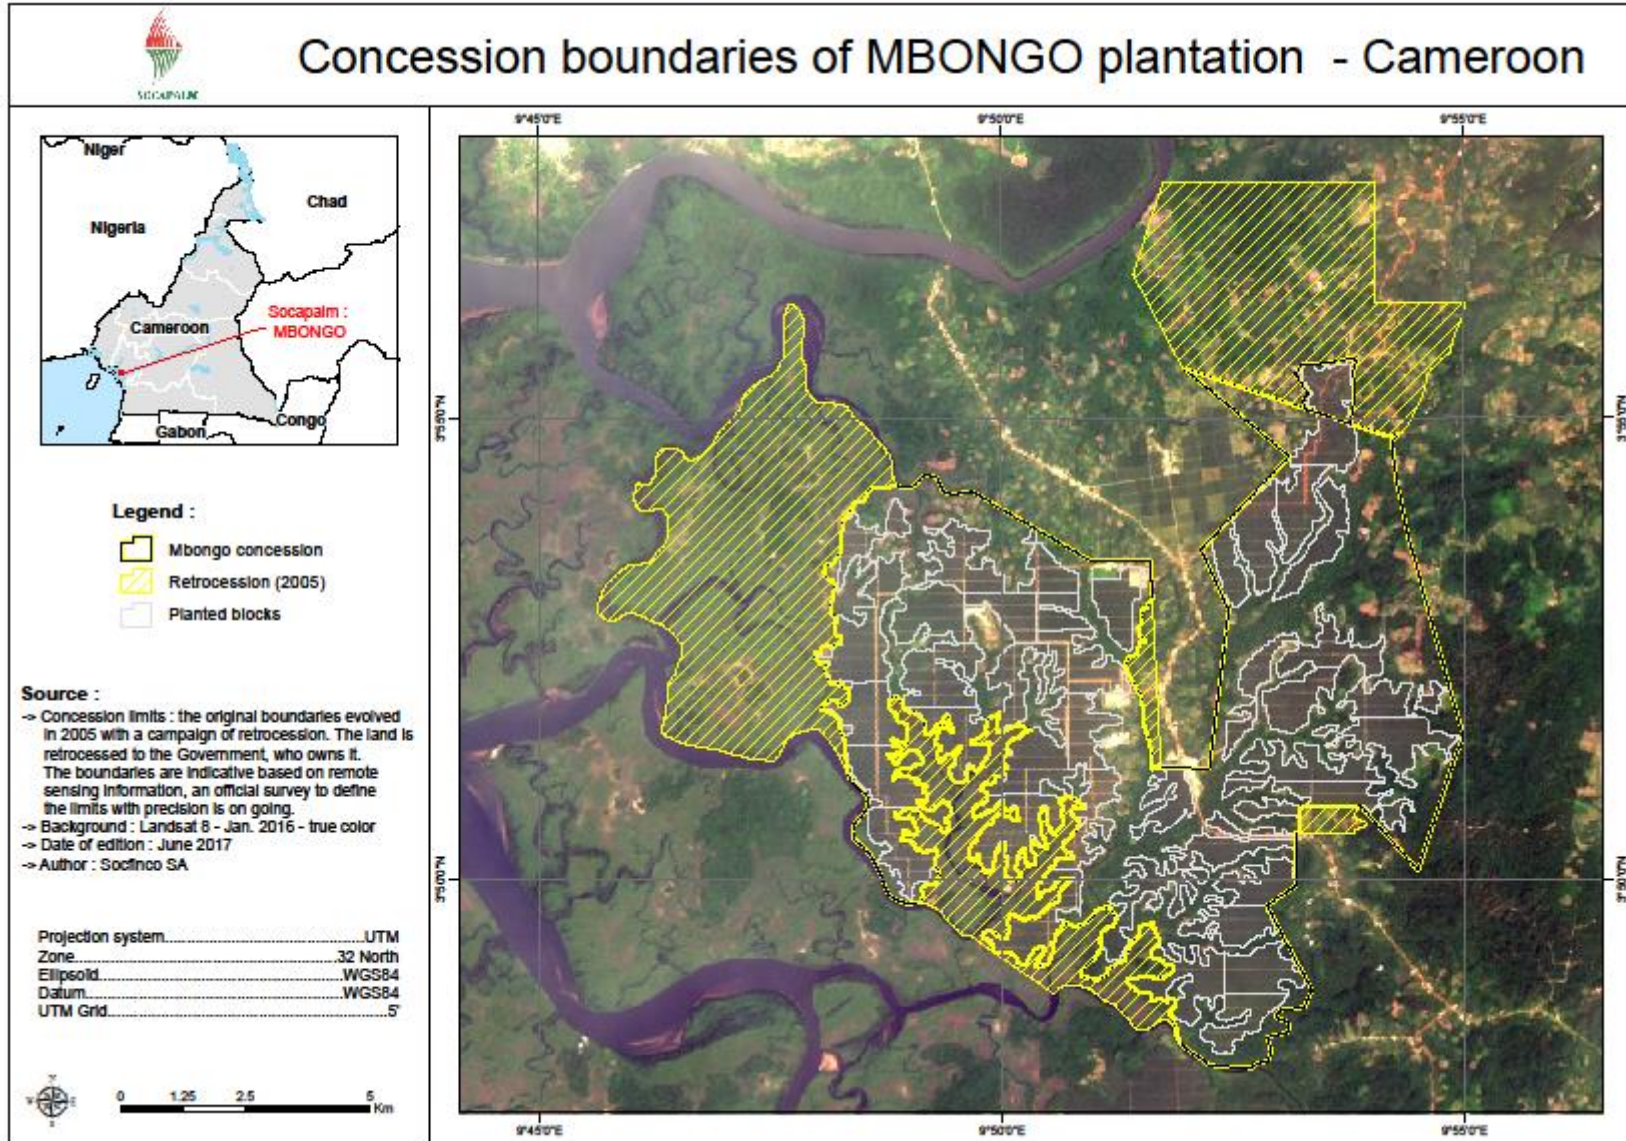

The Government of Cameroon created Socapalm in 1968 in order to reduce the country dependence on vegetable oil imports.

As a public company Socapalm accumulated losses and as such was privatised in 2000 in the context of a public offer.

At the time of privatization, Socapalm totalled 78 529 ha. More than 20 000 ha were retroceded to the legal owner, the State of Cameroon at the end of June 2005.

Today the company counts six concessions totalling 58 063 ha. The concession of Eseka was subsequently villagised. HCV areas and riparian forests are protected under our responsible management programme.
